# **HEY, KIDS!**

## Build A Healthful Bagged Lunch!

#### It's Lunchtime!

The bell rings and it's time for lunch.

Did you pack healthful foods in your lunch bag?

#### **Eat a Rainbow of Color**

Try to pick foods of all different colors. Think of a rainbow.

It is good to have many colors on your tray because that means you chose many different kinds of food.

### **Choose Foods From Each Food Group**

Try to choose foods from each of the five food groups. This will help you build a healthful lunch. Here are some ideas:

- Vegetables: carrots or celery
- Fruits: apples, bananas or strawberries
- Grains: bread, tortilla or bagel
- Dairy: milk, yogurt or cheese
- **Protein:** meat, peanut butter or nuts.

Flip the page over to practice building your own lunch!
